Moved to Scotland at the end if 2014 after 4 years of experience in web development in France. Highly motivated, hard-working and attentive to details. Always looking for a new challenge. Love new technologies and learning new things.

Experience

2014 – present

Web Developer
BBC Education – *Glasgow, Scotland*
- Maintaining and adding new features to BBC Bitesize and iWonder using HTML, CSS, JavaScript and PHP for the front-end
- Creating a powerful Node.JS API to provide personalised curriculum data for the BBC Bitesize website and mobile application
- Creating a modern front-end for BBC Bitesize using Node.JS, React and Webpack
- Maintaining and adding features to existing JAVA back-end services
- Using strong test driven development for all our projects
- Using AWS services (EC2, S3, Lambdas, API Gateway, Redis) to deploy and deliver our new services

2012 – 2014

Web Developer
Dickson-Constant – *Lille, France*
- Creating a mobile and desktop interactive UI from static designs
- Maintaining and evolving the existing websites
- Improvements to a PHP REST API
- UI improvements to an Actionscript 3 awning simulator (Dickson designer)
- Setting up project management tools (SVN, Redmine)
- Setting up and managing dedicated servers (Debian)

2011 – 2012

Web developer
Abase – *Brest, France*
- Creating an intranet for a newspaper company using Drupal
- Improvements on a bank budgeting application and CRM (Java, GWT)

2009 – 2010

Web developer ("sandwich course")
STDI – *Lassay-les-Châteaux France*
- Interactive school books for major French publishers.
- Educational apps and animations using Actionscript 2 & 3
